Vin Battad

NetSuite Administrator & Developer
Manila, National Capital Region, Philippines

Summary

An experienced NetSuite Administrator and Integration Developer with a strong background in SuiteCloud (SuiteScript, SuiteFlow, SuiteAnalytics). Skilled in designing and managing system integrations, automations, and data workflows that connect ERP, CRM, and communication platforms to enhance business efficiency and visibility.

Brings a deep understanding of API integrations, automation strategies, and cross-platform configuration, ensuring that technical solutions align with business goals while maintaining scalability and reliability.

Combines strong administrative and technical capabilities with creative versatility in web development, graphic design, and video editing, delivering solutions that are efficient, user-friendly, and visually refined. Recognized for a collaborative mindset, proactive problem-solving, and a commitment to driving continuous improvement and organizational success.

Experience

Tribute Technology
NetSuite Administrator & Developer
December 2023 - Present (2 years 7 months)
Middleton, Wisconsin, United States

-Serve as the primary System Administrator and Developer, managing and enhancing NetSuite, Salesforce, and Gladly platforms to support business operations and process optimization.

-Design and implement custom workflows, automations, and reports in NetSuite to streamline processes and align with company objectives.

-Successfully led the Wells Fargo integration, enabling secure, automated bank connectivity and improving financial data accuracy and reconciliation efficiency.

- Developed and deployed digital W9 form solutions, modernizing data collection and record management within the company's technology stack.
- Oversee integration projects across ERP and CRM systems, ensuring smooth data flow, reliable synchronization, and optimized functionality between platforms.
- Administer and configure Gladly, handling user management, call setup, and reporting to enhance team performance and customer experience.
- Remain highly adaptable and cross-functional, taking on responsibilities beyond core development to drive efficiency, innovation, and overall company success.
