Development JavaScript, SQL, Python, PHP, Laravel, Vue.js, MySQL, PostgreSQL, Git, GitHub, Postman

Finance processes Order-to-cash, procure-to-pay, collections, month-end close, revenue recognition, intercompany accounting, audit support

Professional Experience

NetSuite Administrator and Developer

Tribute Technology Dec 2023 - Present

- Own day-to-day administration and development for NetSuite OneWorld. Administer Salesforce, Gladly, HubSpot, and Aircall, including user access, call routing, and reporting.
- Led the Wells Fargo ACH integration, enabling customer debits and vendor direct deposits in NetSuite. Built authorization forms and a dashboard for tracking batches and payment exceptions.
- Built a Form W-9 portal for vendor onboarding and a RESTlet that lets a tax compliance partner check submission status.
- Built tools for collections, deferred revenue reporting, and headcount-based expense allocation. Automated A/R and A/P netting against partner commissions and moved vendor bill approvals into Microsoft Teams.
- Write technical and process documentation, create workflow diagrams, and present system changes to business stakeholders and senior leaders.
- Train accounting and finance teams on new workflows, dashboards, and system changes.
- Troubleshoot issues across NetSuite, Salesforce, Gladly, HubSpot, Aircall, and Stripe, including problems with shared data and workflows.
- Configured a least-privilege NetSuite AI Connector (MCP) role for read access to NetSuite data.

NetSuite Associate Technical Consultant

ServiceRocket Apr 2022 - Aug 2023

- Worked with clients and third-party vendors in Australia and the Netherlands to gather requirements, estimate effort, and present proposed NetSuite solutions.
- Wrote technical requirements, solution designs, and workflow documentation. Troubleshot issues and trained client teams on delivered customizations.
- Built batch integrations for custom record creation and procure-to-pay processing using Suitelets and Map/Reduce scripts.

- Served as an embedded developer for an enterprise client, building reporting Suitelets and reprocessing tools. Migrated SuiteScript 1.0 scripts to 2.x and moved saved search logic to SuiteQL.
- Automated item receipt file generation and delivery from a saved search, completing the work in four hours against a five-day estimate.

NetSuite Associate Developer

Ceana Technology Aug 2021 - Apr 2022

- Built an SFTP payment gateway integration that created NetSuite transactions automatically, with a bank reconciliation dashboard and custom PDF layouts.
- Developed an allocation Suitelet with the technical lead and built tools for scrap booking, price entry, and printable barcodes.
- Tested, debugged, and supported NetSuite scripts, workflows, and customizations.

Freelance Web Developer and Designer

Independent contracts Jul 2017 - Jan 2021

- Built Webflow CMS sites for S&S Holdings and WeTea, a Shopify store for Mercancias, and a website for Exquis Solutions. Designed logos and provided software, hardware, and server support for Exquis.

Additional Project

Built a payroll platform in Laravel and MySQL with facial recognition for attendance, multiple user roles, payslips, approvals, and audit trails.

Certifications

Oracle NetSuite Certified SuiteFoundation Associate (2026), Certified Financial Associate (2025), Certified BI and Reporting Associate (2025), Certified AI Foundations Associate (2025)

Celigo integrator.io Mastery Level 3 (2023), Levels 1 and 2 (2022-2023)

Other credentials Gladly Administrator (2023) and Routing Logic (2024), Aircall Admin and Agent (2025), HubSpot Service Hub Software (2025), Oracle SQL through Great Learning (2023)

Education

Bachelor of Science in Information Technology

Far Eastern University, Cavite | 2015 - 2019
