SUMMARY

NetSuite administrator and developer with 5+ years of SuiteCloud work for finance and operations teams. I am the primary administrator and developer of a US company's NetSuite OneWorld account and work US business hours remotely. I build SuiteScript 2.x automations, bank, tax and CRM integrations, and finance tools for collections, deferred revenue, A/R and A/P netting and month-end allocations. Oracle NetSuite certified (SuiteFoundation, Financial, BI and Reporting, AI Foundations) and Celigo integrator.io Level 3 certified.

SKILLS

NetSuite: SuiteScript 2.x (User Event, Client, Suitelet, RESTlet, Map/Reduce, Scheduled, Portlet), SuiteFlow, SuiteQL, Saved Searches, SuiteAnalytics, SuiteBuilder, Advanced PDF/HTML Templates, Advanced Revenue Management, OneWorld

Integrations: Celigo integrator.io, REST APIs, banking APIs, tax compliance APIs, Microsoft Teams, Salesforce via Breadwinner, Stripe, HubSpot, Gladly, Aircall, Shopify, WooCommerce, SFTP

Development: JavaScript, SQL, Python, PHP, Laravel, Vue.js, HTML, CSS, Bootstrap, MySQL, PostgreSQL, Git, GitHub, Postman

Business processes: Order to cash, procure to pay, A/R collections, month-end close, revenue recognition, intercompany, audit support

Design: Webflow, Adobe Photoshop, Adobe Illustrator, Premiere Pro, Filmora

EXPERIENCE

NetSuite Administrator and Developer · Tribute Technology — Dec 2023 to Present

Remote (Middleton, Wisconsin, USA)

- Primary NetSuite administrator and developer for a US company's OneWorld account. Also support Salesforce and Gladly.
- Built a bank ACH platform inside NetSuite for customer debits and vendor direct deposits, from authorization forms to a live operations dashboard.
- Built collections, deferred revenue and month-end allocation tools that finance uses for close and audit.
- Automated A/R and A/P netting against partner commissions, and vendor W9 compliance through a RESTlet for an outside tax platform.
- Moved A/P approvals into Microsoft Teams with SuiteFlow, and maintain the Salesforce sync and SuiteQL dashboards.
- Set up the NetSuite AI Connector (MCP) role so AI tools read NetSuite data with least-privilege access.

NetSuite Associate Technical Consultant · ServiceRocket — Apr 2022 to Aug 2023

Remote (Palo Alto, California, USA)

- Delivered NetSuite integrations and customizations for clients in Australia and the Netherlands, from estimates and solution designs to deployment and user training.
- Built batch integrations with a third-party web service and a procure-to-pay app using Map/Reduce and Suitelets.
- Embedded developer for a large enterprise account, building reporting Suitelets and reprocessing tools.
- Automated item receipt files built from a saved search and emailed to the customer, delivered in 4 hours against a five day estimate.

NetSuite Associate Developer · Ceana Technology — Aug 2021 to Apr 2022

Remote (Cavite, Philippines)

- Built an SFTP payment gateway integration that creates NetSuite transactions automatically, with a bank reconciliation dashboard and custom PDF layouts.
- Built an allocations Suitelet, scrap booking and price population, and a barcode PDF with a custom form popup.
- Tested, debugged and supported existing NetSuite solutions.

Freelance Web Developer and Designer — Jul 2017 to Jan 2021

Remote (Manila, Philippines)

- Built CMS websites in Webflow for S and S Holdings and WeTea, so each team updates its own content.
- Built a Shopify online store for Mercancias and a website for Exquis Solutions, and gave Exquis software, hardware and server support.
- Designed logos for S and S Holdings, Exquis Solutions, Greener World Technology, Precise Construction and Trading, Hailux Holdings, WeTea and the Philippine Eagles Makati club in Photoshop and Illustrator.
- Built a multi-role payroll system with face recognition attendance, payslips, approvals and audit trails in Laravel and MySQL.
